Michael Maher Anwer Massoud

Cairo, Egypt | +20 1013559339 | Michael.maher2252001@gmail.com

Professional Summary

Data Analyst with a strong finance and business background, specializing in Power BI and SQL to analyze sales, financial performance, and fraud risk. Experienced in building interactive dashboards, performing data modeling and DAX calculations, and translating complex datasets into actionable business insights.

Analytics projects

Fraud Analysis Dashboard | Power BI

• Built an end-to-end fraud analysis dashboard in Power BI, identifying high-risk transaction patterns by geography and time using DAX-based KPIs and drill-down analysis.

• Analyzed transaction exposure by geography and time to identify high-risk patterns and anomalies.

• Created transaction-level visibility to support investigation, review, and traceability.

• Applied data modeling and DAX calculations to enable aggregation, filtering, and drill-down analysis.

Sales & Performance Dashboard | Power BI

• Built a Power BI dashboard to analyze sales trends, profitability, and performance versus targets.

• Implemented variance and margin analysis to support performance monitoring.

• Analyzed results by region, product category, and time period to highlight key drivers.

• Designed executive-level visualizations to support decision-making.

Experience
